Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Okada (US PG PUB 2004/0057700a A1).

Regarding claim 1, Okada discloses a apparatus for processing image data and playlist data indicating a playback procedure of the image data, the apparatus comprising: playlist processing means for generating playlist data based on a specified playback procedure for image data, and for generating date information of the playlist data based on date information regarding the image data specified in the playlist data (see paragraphs 0219, 0271-0273 and fig. 9) ist data and the date information of the playlist data in association with each other on a recording medium (see paragraphs 0273-0275).

Regarding claim 2, Okada discloses the recording means generates a playlist file including the playlist data and the date information of the playlist data, and records the playlist file on the recording medium (see paragraphs 0271-0275 and 0283).

Regarding claim 3, Okada discloses the date information of the playlist indicates a generation date of the playlist data (see fig. 9 and paragraph 0273).

Regarding claim 4, Okada discloses the playlist processing means generates date information of the playlist data based on date information of image data that is to be played back

first among the image data specified in the playlist data (see fig. 9, paragraphs 0219, 0266, 0271, and 0283, user defined PGC).

Regarding claim 5, Okada discloses the playlist processing means generates date information of the playlist data based on date information of image data that is to be played back last among the image data specified in the playlist data (see fig. 9, paragraphs 0219, 0266, 0271, and 0283, the playlist is user defined PGC).

Regarding claim 6, Okada discloses the playlist processing means generates date information of the playlist data based on date information of image data having date information indicating an oldest date among the image data specified in the playlist data (see fig. 9, paragraphs 0219, 0266, 0271, and 0283).

Regarding claim 7, Okada discloses the playlist processing means generates date information of the playlist data based on date information of image data having date information indicating a latest date among the image data specified in the playlist data (see fig. 9, paragraphs 0219, 0266, 0271, and 0283).

Regarding claim 8, Okada discloses the playlist processing means further generates thumbnail image data of the playlist data based on the image data specified in the playlist data, and the recording means further records the thumbnail image data of the playlist data in association with the playlist data on the recording medium (see figs. 8, 10 and paragraphs 0279-0285).

Regarding claim 9, Okada discloses the playlist processing means generates date information of the playlist data based on date information of image data selected from the image

data specified in the playlist data, and generates thumbnail image data of the playlist data based on the image data selected (see paragraphs 0283, 0285-0286).

Regarding claim 10, Okada discloses the playlist processing means further generates recording-position information of the playlist data based on position information indicating a recording position regarding the image data specified in the playlist data, and the recording means further records the recording-position information of the playlist data in association with the playlist data on the recording medium (see figs. 8-11, paragraphs 0281, 0709-0718).

Regarding claim 11, Okada discloses the playlist processing means generates date information of the playlist data based on date information of image data selected from the image data specified in the playlist data, and generates recording-position information of the playlist data based on position information of the image data selected (see figs. 11, 33 and paragraph 0714).

Regarding claim 12, Okada discloses the image data specified in the playlist data is recorded on the recording medium (see paragraphs 0271-0275).

Regarding claim 13, Okada discloses display control means for displaying information regarding the image data and information regarding the playlist data recorded on the recording medium, in an order based on the date information (see fig. 9, paragraphs 0285 and 0447).

Regarding claim 14, Okada discloses the recording medium is a recording medium that allows random access (see abstract and paragraph 0109).

Method claim 15 is rejected for the same reason as discussed in the apparatus claim 1 above.
